The Magic Line To The Light

An **Inspired** Message

from Saiful Rizal

Hey My Friend!

I hope what I'm about to share with you doesn't scare you too much...

I still remember "it" very vividly like it happened this morning.

I'm going to tell you exactly what happened in just a moment. I want you to read the words slowly so that you can experience it for yourself.

Imagine this:

You are lying on your bed after a hard long day's work.

You are feeling tired so you decide to call it a day and go to sleep early.

You don't roll around or anything – too tired for that.

You simply fall asleep.

Soundly.

The Magic Line To The Light

Very soundly.

The hours pass.

You open your eyes.

Darkness. Silence. Stillness in the air.

You try to move but you can't.

It feels like 20 strong men are holding you down.

Something is wrong.

Your ears start ringing, very subtly at first.

And before you know it, something was forcing it's way out of you.

The ringing was getting stronger.

Your chest is starting to hurt.

No, something wasn't forcing it's way out of you, something was *being forced out* of you...

It feels like something was being *sucked* out of you.

The Magic Line To The Light

Like someone took a huge vacuum cleaner and shoved it into your heart.

Only that it wasn't your heart.

It was something else.

You are beginning to realize what was happening.

You are starting to panic because...

It wasn't your heart that was being sucked out.

It's your soul.

And you could almost feel your chest rise as the very life-force that sustains you is being sucked out of you.

It's your soul.

Now, it's almost completely out of you – you feel like you're almost floating.

It's your soul...

PITCH BLACK.

What if something like that was to happen to you?

The Magic Line To The Light

What would you feel?

What would be running through your mind?

What would you do?

Let me tell you how I felt when it happened to me.

Scared.

Terrified.

Regret.

And when I knew there was nothing I could do about it, submission to God.

What about what ran through my mind?

No, my life didn't flash in front of my eyes.

It was nothing like that.

It was scary... very scary.

It wasn't so much what I did that scared me.

The Magic Line To The Light

It was the things I *didn't do*.

I remember asking myself, “Why didn't I do everything in my power (to lighten the lives of others around me, and those who I attracted into my life)?”

“Why did I waste my time (with petty things like procrastination, fear, doubt, worry and anxiety) when I could have been a guiding light to my friends, family and someone like you?”

Yes, I was angry at myself and was trying to fight death.

But when I realized that it could very well be the last breath I ever took, I let go and let God.

I submitted.

And the very instant I did that, I was released from the stranglehold.

You want to know how I knew it wasn't just my lungs or heart collapsing and was indeed my soul being sucked out?

Because when that stranglehold was released, I didn't gasp for air.

My breathing was normal.

I wasn't even panting.

The Magic Line To The Light

I just looked up at the wall and breathed...

Until I Fell Asleep, As The Man With A Second Chance

Yes, I do feel like I've been given a second chance at life.

And here's the biggest lesson I learnt from this near-death experience that I believe I was supposed to hand down to you, my friend:

Life is short.

Yup, that's it. I don't know how to phrase it any better but the truth is that life's too short to give in to fear, doubt, worry or procrastination.

They're just not worth it!

Trust me. Having personally experienced "it", giving in to these life-suckers as I now call them (*because they suck the "life" out of your life*) is totally not worth it!

I don't know if I'm expressing myself the best I can here but I know for a fact that if you were in my place right now, you'll want to fully experience every second of your life.

Let me put it this way..

The Magic Line To The Light

Do you want to be regretting over the things you didn't do (*because of these life-suckers*) when you're breathing your last breath?

Or do you want to go in peace, remembering the happy faces of the lives you've touched ever since you began your journey of life?

Let's try this question...

“What if you had the nearest near-death experience last night and you almost subscribed to the possibility that it was time for you to go, only to be given a second chance?”

Multiply that feeling of gratitude by 10 and you might just come close to what I'm feeling right now.

So What Does This Have To Do With You Attracting Things, People and Events Into Your Life Faster?

Glad you asked...

You see, over the past 2 months of introducing the Law of Attraction Inner Circle Coaching Club, I've coached almost 50 people and I was starting to see patterns.

The Magic Line To The Light

And the biggest pattern was that almost everyone was holding themselves back.

They came in different forms.

Some people asked themselves questions like, “Who am I to teach others how to lead their lives?” - a classic case of low self-esteem.

Others told me, “I know exactly what I have to do but I just can't seem to get around to doing it.”

And then there were the perfectionist analyzers.

“I don't think I have enough information to do this. I need to go and read more about it, get the training, listen to more tapes and...”

You get the idea... Analysis paralysis. One word – **DEADLY**.

The list goes on and on.

I want you to scroll up and read those again.

Are those really valid excuses?

Hmmm, is there even such a thing as a valid excuse?

I don't think so.

I prefer to call them counter-intentions. But that's not important.

The Magic Line To The Light

What if I told you that I can help you clean these counter-intentions and the rest that come your way with a Magic Line?

Would you be skeptical?

I mean, all that resistance from years and years ago can all disappear with this Magic Line.

In fact, I'm saying this Magic Line in my head over and over again right now that not only stops me from procrastinating but also helps me get into the vibration necessary to create miracles.

I call it, "The Magic Line To The Light".

And up until now, I have never revealed this piece of information to you before. I have never revealed it to anyone – not even those I coached.

And it's not because I wanted to hoard this technique to get you to pay for it.

If that was my intention, I would probably have charged you for this report.

But why I haven't shared this technique before is because...

**I Attracted This Information
Into My Life After "It" Happened!**

Inspired Action Coaching Program

The Magic Line To The Light

You remember I told you in my E-mail that I was asking myself why the terrible event happened to me?

Well, I found out the very next day.

I was in the middle of refining my Inspired Action Coaching Program when I had an inspired idea.

The idea came all of a sudden. It didn't make sense. And something was nudging me to take action there and then – the recipe for an Inspired Action.

I stopped everything I was working on, looked for the MP3 files in my hard-drive, uploaded them into my Ipod, lie on my bed and let it rip...

I didn't know what I was searching for but I knew that I'll know what it is when I found it – Inspired Actions are cool and mysterious like that.

And then an hour or so into the audio program, I found it!

I was shocked!

How could something so simple solve all my problems and dissolve all my counter-intentions?

But being the open-minded guy I am, I immediately applied it.

The Magic Line To The Light

And then I waited for the results...

And waited.

And then...

Nothing happened!

How's that for an anti-climatic moment?

I remember thinking to myself, "Maybe this isn't what I'm looking for..." and continued listening...

But I never stopped applying the technique.

Two hours into the program, I fell partially asleep...

**And Then, The Most Beautiful Thing
Appeared In Front Of My Eyes...**

It was extraordinary! No, it was majestic! **No, it was MAGNIFICENT!**

While I would pray that the Universe keeps you as far way as It can from my previous experience, I pray that you get to experience this Magnificence at least once in your lifetime.

The Magic Line To The Light

Nothing I say will communicate what I saw.

To put it bluntly , it was an “I saw The Light” experience.

Just closing my eyes and remembering It now runs tingles down my spine.

Let me explain what happened...

I was partially asleep when I felt something nearing me.

And then I saw The Light.

It came from the top right hand corner of my eye and then it started growing until all I saw was this magnificent light.

It was bright but It wasn't glaring.

It was a light, but it wasn't just a light.

It was radiating love.

I felt so happy, grateful and loved .

I wanted to bask in all that love forever but it lasted for a moment – the most beautiful moment of my life!

The Magic Line To The Light

The next morning, I woke up with a totally different vibration.

And I've tried using this technique on everything and it works **ALL THE TIME!**

So you're probably itching for me to tell you what this Magic Line is.

But first, let me tell you this quick story I heard in the mind-blowing audio program that I listened to.

The speaker was talking about a car salesman who sold millions of dollars worth of cars **MORE** than his friends at the dealership.

What's interesting is that this man did not employ better marketing techniques or use a special system.

What's even more fascinating is the fact that people ended up not only buying one car from him but sometimes two to three cars all at once.

And all he did was repeat the Magic Line in his head over and over again just like I am right now.

Okay you probably couldn't stand the anticipation anymore.

And you're probably want me to just tell you the Magic Line already.

All right, all right... Here goes...

The Magic Line To The Light

I Love You.

Three words.

I told you it was simple.

The Magic Line that brought me to The Light was “I love you.”

I love you.

I love you.

I love you.

The power of love is magnificent.

And that's all you need to take from this “Magic Line To The Light” Report.

For the next 24 hours, keep repeating “I love you” in your head until it becomes like one of those songs you can't get out of your head.

Say it to everything good you see.

Say it to everything bad you see.

Say it to your BIGGEST DREAMS.

The Magic Line To The Light

Say it when you start to procrastinate.

Say it whenever you feel doubt, fear and worry.

And then, start to notice the amazing things you attract into your life.

**That's All You Need To Know
And That's All You Need To DO.**

But something tells me that if I end this report here, your logical mind will probably go “Huh?! What's the explanation for all this?!”

So, I'm going to give you a brief explanation.

Love was what I experienced and I believe it happened to me because I was attracting it into my life by virtue of what I was repeating in my head – “I love you”.

And since I was partially asleep, this repetition went into my subconscious mind and if you're familiar with my work, you would know that the subconscious mind is the realm of the soul.

It is where inspired ideas are born.

It is your connection to the Divine.

The Magic Line To The Light

A word of caution here: When you say “I love you”, you are not saying it to things or events as much as you're saying it to the Divine.

Now if this is starting to sound rather familiar to you, it should be.

Because this is all about Ho'oponopono.

If you're a new reader and you would like to know more about this technique, I've written about it extensively at <http://www.asksaiful.com/2008/01/14/zero-limits-summary/>

But that's not necessary because I'm going to reveal the most important concept to you now.

Ho'oponopono is a “cleaning” technique.

The underlying concept is hard to grasp especially if this is the first time you're hearing about it.

And if you know what Ho'oponopono is, there's a possibility you might have forgotten about this important concept – I totally forgot about it until I listened to those cleaning MP3's!

To understand this concept, let's get back to the root of the Law of Attraction.

You have attracted everything, everyone and every event in your life thus far.

The Magic Line To The Light

Agreed?

Let's take this one step further.

Since all of us come from one source, we are all one.

Agreed?

Now, your reaction to what I'm about to say next might be eye-opening to you.

Here goes...

Since all of us are one, you and I share a collective experience and I am also responsible for what you experience because I have attracted that into my life.

If you reacted negatively and thought this was ridiculous, think again.

If you nodded in agreement, congratulations my friend. You REALLY take 100% responsibility for your life.

Keep reading that sentence until you can wrap your head around that concept because once you understand it, you can **finally attract anything** you want.

Let me explain.

Today, my Mom expressed her fear over the surgery she's going through two

The Magic Line To The Light

days from now.

STOP! You Have Just Attracted That Into Your Life!

You're probably going, "Huh?!"

You see, the Law of Attraction states that you attract into your life whatever you're in vibrational resonance with.

And since you attracted me into your life and since I told you about my Mom's experience, logically you have attracted that into your life as well.

Let's clear this up once and for all : My Mom is afraid of going through with the surgery.

At first glance, you'd probably think that has nothing in vibrational resonance with you.

What if I phrased it this way : My Mom is afraid of going through with something that might hurt her for a while but will ultimately do her a lot of good.

Now, do you think you are in vibrational resonance with that?

Isn't there something that you're afraid to go through, that might hurt you or bring you pain temporarily but will ultimately do you a lot of good?

The Magic Line To The Light

I'm 100% sure there is because if there wasn't you wouldn't be reading this right now.

There is some part of you that is in fear of something.

And the best part about hearing something “bad” like this is that it automatically identifies the counter-intention you have within you.

In this case fear.

So what do you have to do now?

Clean by saying, “I love you. I'm sorry. Please forgive me. Thank you.”

And when you do that, what happens is that you are cleaning on that shared experience and it will be erased if you constantly clean on it.

Since all of us are one, if you clean it out of your system, you will have effectively cleaned it out of the Universe.

Now that probably seems like a HUGE task ...

Which is why I have been cleaning non-stop ever since I found out about this Magic Line.

I say “I love you” to everything and whenever I spot a counter-intention in others

The Magic Line To The Light

and myself, I immediately do a spring cleaning with “I love you. I’m sorry. Please forgive me. Thank you.”

So, if you hear someone bitching tomorrow about how bad life is treating him or her, you know that there's a part of you that's doing that.

CLEAN.

If you hate something about someone be it your spouse, your children or a co-worker, chances are you have that very characteristic.

CLEAN.

What do you do if you start feeling fear, doubt, worry and anxiety or find yourself procrastinating?

CLEAN.

You get the idea.

And that is how you clean counter-intentions out of your system so that you can attract anything you want far more easily and quickly. =)

You know, while I was writing that second last example of how you can only hate something in someone that you hate about yourself, I thought I should point out something important to you.

The Magic Line To The Light

There Is No Outside Without An Inside.

As I wrote that second last example, I thought to myself “What a marvelous example of this Truth!”

You can only attract someone you hate into your life if you hate something about yourself.

That person is merely a symbolic and physical manifestation of your thoughts and in my opinion, you created that person in your life as a sign for you to correct yourself.

Okay I'm starting to feel like I'm going down the rabbit hole here and that is a slippery slope, so let's just leave it at that.

As much as I love to intellectualize, I love to see results in my life and yours.

So There You Have It...

The Magic Line that got me to The Light.

I have been using the Magic Line on things like my fear, doubt, anxiety, procrastination to my gratitude, joy, excitement and inspired actions.

I told my friend Bill Covert over on Facebook about it and the results are just amazing! Within 24 hours of telling him about it, he sent me a message and told me that

The Magic Line To The Light

it works marvelously well with his relationships.

And I couldn't agree more. The Magic Line does not only clean, it also attracts love, joy and gratitude into your life.

But the bigger change that Bill might not have noticed himself was the dramatic change in his vibration!

You know how you could sense someone's tone of voice through their words?

From a scale of 1 to 10, I would say that Bill went from a 5 to a 20 on the vibration level.

And I'm not exaggerating! There were so many exclamation marks and "haha"s in his messages after I told him about The Magic Line!

START NOW!

Have you started repeating The Magic Line?

Trust me. You want to do this favor for yourself.

And just a little heads up here : It's simple but it's not easy.

You'll understand why in a few days time.

The Magic Line To The Light

And when you do, you might just shoot me an E-mail and I'll tell you how I overcame that hurdle as well.

Till then, keep saying "I love you" every second you're breathing.

Okay I have just gotten an inspired idea, so I'm going to act on it now.

If you know me pretty well, you'd know that I have never said what I'm going to say next.

I highly recommend that you purchase yourself a copy of the MP3's that I used to make this wonderful understanding in my life.

I've never recommended any products to you because I think you could go without it, but this one...

This one I believe is going to be worth every cent you pay for which is why I'm recommending it to you.

Let Me Tell You Why I Love It So Much And Why You Should Get It

- 1) My favorite man, Dr Joe Vitale is in it!!!
- 2) The vibration I get into just by listening to these MP3's is AMAZING! It's a

The Magic Line To The Light

recording of a very small group seminar of 20 and has all these dynamic and energetic interactions!

3) There are many other simple techniques in there that made the biggest difference my world!

4) I have begun to get inspired ideas faster with a technique Joe teaches to get to the “Whiteboard” or “The Silence” as I call it.

5) The questions the people asked are exactly what I would ask if I was there with Joe and it has really answered a lot of the burning questions I had.

I had no intention of promoting this audio program but I was inspired to do it so I'm thinking maybe it's because you needed to hear what's in it.

So check out the website below and purchase the program if it resonates with you. If it doesn't, maybe it's not the right time for you to hear the message yet.

[Click here to check out and purchase the program.](#)

Thank you for your time my friend and please feel free to pass this to your loved ones so that they can benefit from this powerful Magic Line and till then...

I LOVE YOU!
